ABOUT ME

As a **backend developer** specializing in **ASP.NET Core**, I am shaping my career with a focus on this technology. I recently graduated with a degree in Computer Engineering from Pamukkale University. I initially spent 1.5 years in front-end development, working with **HTML, CSS, JavaScript**, and **React**. However, my interest in backend development led me to transition to technologies like **ASP.NET Core** and **Java Spring Boot**. I am dedicated to continuously improving my skills and learning new concepts in this field. In terms of social and teamwork skills, I am an active member of the Pausiber student community at our university, which focuses on software. Within the community, I have participated in team projects and served as a trainer in Frontend-101 and Linux-101 workshops.

WORK EXPERIENCE

Backend Developer Intern

Jotform [06/2024 – 08/2024]

City: Izmir | **Country:** Türkiye | **Website:** https://www.jotform.com/

Link: https://drive.google.com/file/d/129Xx_0tfQyUjDGQ_EcAfk1fI0oA47eSw/view?usp=sharing

Project: Interactive Raffle Application
- Developed a backend system for a raffle application using **PHP**, which enabled dynamic user interactions and smooth frontend integration.
- Designed and implemented key functionalities, including determining winners based on user inputs, performing CRUD operations, and integrating with a **MySQL** database.
- Optimized backend processes for seamless data exchange with the frontend, ensuring real-time updates and efficient communication.
- Collaborated closely with cross-functional teams, including UX designers, UI developers, and frontend engineers, to ensure cohesive project delivery and user-centric features.

Technologies: PHP, MySQL, Postman, DBeaver

Frontend Developer Intern

Dgpays [07/2022 – 08/2022]

Country: Türkiye | **Website:** https://dgpays.com/

Project: Movie Information Platform
- Contributed to the development of a movie information platform displaying detailed data on 500+ popular movies, utilizing React components and third-party API integrations to ensure a seamless user experience.

Technologies: HTML, CSS, Bootstrap, JavaScript, React, Next.js

EDUCATION AND TRAINING

Computer Engineering (B.Sc.)

Pamukkale University [09/2019 – 09/2024]

City: Denizli | **Country:** Türkiye | **Website:** https://www.pau.edu.tr

DIGITAL SKILLS

Programming Languages

C# / Java / Javascript

Frameworks

ASP.net Core / .Net / Spring Framework / Spring Boot / React

Software & Others

Git / Docker / Postman

Database

Ms SQL / Mongodb / MySQL / Postgre Sql

PROJECTS

E-commerce Microservice Project Developed a scalable e-commerce platform using microservices architecture with 15 active services. Implemented secure user management with IdentityServer and JWT. Utilized Docker for containerization and deployed services across multiple environments, integrating MS SQL, MongoDB, and Redis for data management and caching.
Technologies: ASP.NET Core Web API, MVC, IdentityServer, JWT, Entity Framework, CQRS & MediatR Pattern, Onion Architecture, N-Tier Architecture, Docker
Database: MS SQL, MongoDB, Redis

TRAININGS

ASP.NET Core Bootcamp

I received comprehensive training in developing web projects with **ASP.NET Core MVC.**

Turkcell Java Bootcamp

In this training program organized by Turkcell, I received comprehensive instruction on **Java Spring Boot** for a total of 120 hours. Using a variety of software technologies, my team and I developed a CRM project.

LANGUAGE SKILLS

Other language(s):

English

LISTENING C1 **READING** C1 **WRITING** B1

SPOKEN PRODUCTION B2 **SPOKEN INTERACTION** B1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user
